### **Intuicom’s “Brand Neutral” Approach to Cellular RTK Achieves Industry-wide Compatibility**

**Boulder, CO – (March 22, 2016)** – Intuicom, Incorporated, a premier supplier of wireless solutions to the precision agriculture and machine control industries, announced today that its flagship communications hub, the Intuicom RTK Bridge®-X is now compatible with all the leading precision guidance systems available on the market today, regardless of the color of the equipment its found on. This compatibility extends to the leading manufacturers’ proprietary subscription-based, dealer-supported base station networks, public RTK base stations, as well as the growing footprint of virtual base networks throughout the United States and Canada.

“Intuicom’s commitment to engineer and demonstrate compatibility with leading manufacturer’s in agriculture and machine control remains fundamental to our product strategy,” states Tom Foley, president and CEO of Intuicom, Inc. “Our ability to leverage government, private, as well as proprietary RTK networks and seamlessly integrate and support all the leading manufacturers and precision guidance systems—like John Deere, Case IH, Caterpillar, New Holland, Trimble, Ag Leader, Raven and Topcon— provides our resellers and distributors an exclusive means of strengthening their communication solutions to address the growing expectations of their customer base.”

### **A True Communications Hub**

The RTK Bridge®-X, with its array of communication capabilities, represents a single device capable of facilitating unequalled access to user’s data and network RTK corrections. Able to secure cellular connections where other devices cannot, the RTK Bridge®-X serves as a WiFi hotspot delivering Internet

access to all the user's wireless devices, including smart phones, tablets and laptops. Engineered exclusively to complement the robust features of the RTK Bridge®-X, the RTK Bridge®-X Bluetooth Receiver lets precision agriculture and machine control users avoid the time-consuming process of running cumbersome cables to their various implements and guidance systems. Along with Remote Access and available Intuicom Remote Support service, the RTK Bridge®-X takes productivity in the field to a new level.

**About Intuicom, Inc.**

Intuicom provides wireless RTK and data communication solutions designed to satisfy the most demanding requirements for long-range remote or mobile device networking. Intuicom provides unsurpassed performance and flexibility. Founded in 1999, with headquarters in Boulder, Colorado, Intuicom solutions enhance applications including precision agriculture, surveying, and machine control. You can learn more about Intuicom and the wireless solutions they offer at [www.intuicom.com](http://www.intuicom.com).
