

RTK Bridge®-X

All the Communications You
Need...All in One Place

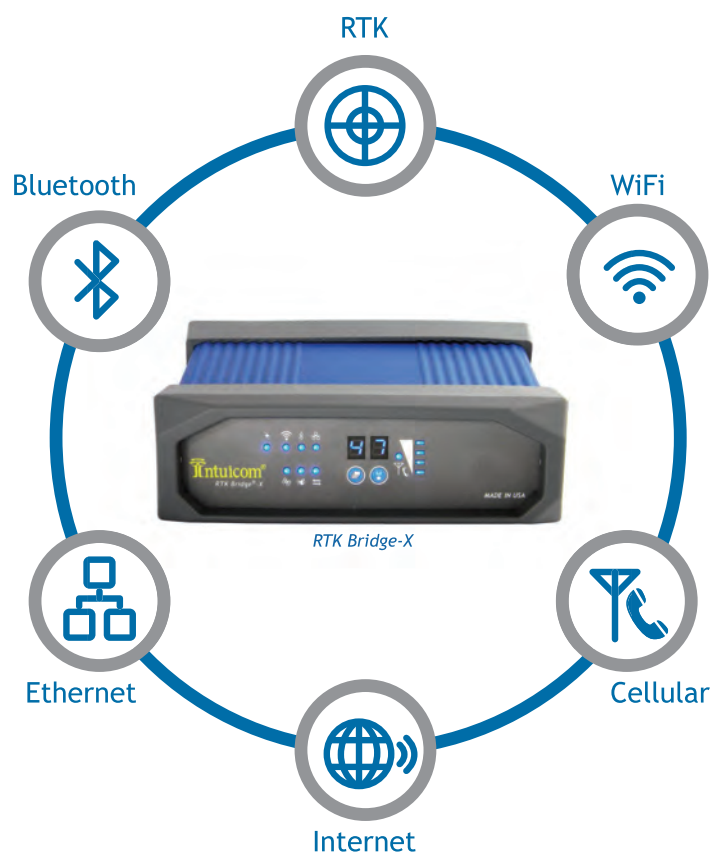

Intuicom Precision RTK Solutions

For Machine Control, Survey and Construction Applications

RTK Bridge®-X Delivers Unrivaed Access to RTK Corrections Combined with Internet Connectivity and Remote Technical Support

All the communications you need, all in one place.

- Simple, intuitive set-up, right out of the box
- Enables wireless configuration via phone, tablet or laptop
- Automatically connects to the Internet and begins delivering RTK corrections instantaneously
- Compatible with major precision guided construction equipment
- Compact and rugged: built to withstand the harshest conditions
- Two wireless versions available: Verizon Wireless or SIM-based version compatible with AT&T, T-Mobile, Telus, or similar providers
- Leverages data plans avoiding long-term service contracts
- Backed by industry-leading technical support personnel

Intuicom's RTK Bridge-X is loaded with features to deliver exceptional performance and connectivity

RTK

The most reliable, flexible way to get and stay connected to your RTK corrections

BLUETOOTH

Bluetooth connectivity lets you rid your equipment of cumbersome serial cables

CELLULAR

The most robust cellular connection in its class — providing 24/7 connectivity and remote accessibility

INTERNET

Access e-mail, upload/download files and perform Internet-based tasks

ETHERNET INTERFACE

Connect to any ethernet-based devices (laptops, base stations, etc.) for easy terminal emulation

WiFi HOTSPOT

Efficient wireless connectivity to all devices on your network
Port forward connectivity and remote internet accessibility

Survey and Construction Positioning with RTK Corrections

Enhanced Machine Control and Grading Solutions

Intuicom Remote Support - *an Intuicom exclusive!*

Maximize your time in the field with the Intuicom Remote Support option. With this service, one call to Intuicom does it all. We'll remotely access your RTK Bridge-X to ensure your configuration is optimized and look for ways to quickly resolve any performance issues. (Currently available only in USA)
