# 4G LTE RTK Bridge®-X Delivers Unmatched Access to Network RTK Corrections Combined with Internet Access and Remote Support

All the communications you need, all in one place.

- Faster upload/download speeds than 3G devices
- Wireless configuration via phone, tablet or laptop
- Improved WiFi Hotspot and Internet connectivity
- Automatically connects to the Internet and begins delivering RTK corrections
- Compatible with major precision agricultural equipment
- Built to withstand the toughest conditions
- No long-term contracts

Survey and Construction Positioning with RTK Corrections

Enhanced Machine Control and Grading Solutions

The 4G LTERTK Bridge®-X is loaded with features to deliver exceptional performance and connectivity

#### CONFIGURE WITHOUT CABLES

Access, configure, and manage your device without cables

#### FASTER WIFI AND INTERNET

Enhanced connectivity and expanded coverage makes it easy for users to access the Internet from any device type

#### IMPROVED CELLULAR

The most robust cellular connection in its class – providing 24/7 connectivity and remote access

#### BLUETOOTH FUNCTIONALITY

Eliminates the time, clutter, and inconvenience of having to run extra cables between all your various GNSS systems

#### 900MHz, UHF, and GPS

Internal, industry-standard, license-free 900MHz or UHF transceivers are available to meet any working environment

#### ETHERNET INTERFACE

Access e-mail, send files and perform Internet-based tasks

### Intuicom Remote Support - *an Intuicom exclusive!*

Maximize your time in the field with the Intuicom Remote Support option. With this service, one call to Intuicom does it all. We'll remotely access your RTK Bridge-X to ensure your configuration is optimized and look for ways to quickly resolve any performance issues.
